Serial No. 10/687,655  
Filed: October 20, 2003  
For: DISPLAY DEVICE  
Docket No.: 0756-7206

---

Mr. Dharia,

Thank you for taking the time to discuss the above-referenced application via telephone this morning. Further to your telephone conversation with Mr. Robinson on September 24, 2007, we have notified the Applicant of your proposed *Examiner's Amendment*, which would amend claim 6 to include the features of the charge pump control circuit as recited in claim 2, and which would place the application in condition for allowance.

The Applicant generally agrees with the proposed *Examiner's Amendment*, and respectfully requests that claim 6 be amended as shown in the attached *Proposed Amendment*. Also, the Applicant requests that dependent claims 4 and 5 be amended to depend directly from independent claim 2 and to change "a CPU" to "the processing unit" as shown in the attached *Proposed Amendment*.

Once you have had an opportunity to review the *Proposed Amendment*, if possible, please contact me at the number above to confirm your acceptance of the *Proposed Amendment*. Also, please contact me if there is anything further that would be desirable to place this application in better condition for allowance.
